

Dear Remigijus,

My name is Felix ABOTSI. I am a bodybuilder in Republic of BENIN. This is about 12 years I have been in the game and still practicing. I have participated in 46 competitions up to now, and have become the West African Champion.

As you can see in my pictures, I am a drug-free athlete. I have never tasted any supplement or steroids, and will never do it.

That I am writing you today is simply because I am in need of your help.

Here in Republic of BENIN, practically all the young people adore practicing bodybuilding and fitness. And since I am considered as the most famous and biggest star of bodybuilding, all the young and under aged athletes are really looking up to me so that they can be what I am.

But unfortunately, I do not have the necessary equipments (...) to help to train and lead the young ones to become the future champions.

This is the reason why I really ask for your support in donating us the old equipments you have or that are not in usage. Please, kindly help us with some second-hand or useless fitness equipments. No type of equipment you send to us will be appreciated and received happily and kindly. Your support will go a long way in promoting, developing and expanding the training of bodybuilding and fitness here in BENIN.

A foundation will then be opened in your name (REMIGIJUS BIMBA FOUNDATION) and showing your love toward the development of bodybuilding and fitness activities. That foundation we are going to create will fight poverty in BENIN by getting the young ones occupied, so that they will not be engaged with juvenile delinquency if they are idle. Thanks to your help, they will be a high figure in the world of bodybuilding or powerlifting.

Please, do not neglect my request because I count so much on you.
Should you require any further information, please feel free to call on me.
I thank you for what you are and what you have always been.
I am proud of you.

Yours truly

Felix ABOTSI
